

# **Unit of Cancer Epidemiology and Centre for Oncologic Prevention, San Giovanni Battista Hospital and University of Turin, Italy**

## **Two Biostatisticians**

Hours: Full-Time

Location: Turin, Italy

The Unit of Cancer Epidemiology and Regional Centre for Oncologic Prevention, situated as an academic unit within the San Giovanni Battista Hospital (<http://www.molinette.piemonte.it/>) in Turin, is seeking to appoint two biostatisticians to join the ongoing project “Methods for clinical trials in oncology” within the Clinical Epidemiology group.

The appointed persons will contribute to the study design and analysis of clinical researches, especially randomized controlled trials.

Knowledge, skills and experience required:

- a MSc or PhD in Biostatistics or Medical Statistics, or a degree in Statistics or related subjects with a substantial training or work experience in statistical methods applied to medical data;
- preferably previous work experience in clinical research, evidence based medicine, clinical trials data analysis, with particularly reference to survival analysis and Bayesian methods.
- a good knowledge of statistical packages (SAS, STATA, R);
- a good knowledge of English and basic knowledge of Italian languages.

The candidates will have the opportunity to work in a dynamic and interdisciplinary group; to develop scientific communication skills, along with developing their own research ideas.

The full-time positions are available for a fixed term of one year with the possibility of an extension.

Gross base salary: €25,000.00

The candidates will be selected on the basis of an individual score, calculated using the following criteria:

- CV evaluation- 50 points, of which comprise: work experience- max 20 points; specific training- max 10 points; publications- max 20 points
- Interview following a minimum CV evaluation of 30 points (50 points).

To apply for the above vacancy please send the application, a detailed CV, and a copy of a valid ID card to:

“Selezione per progetto Metodologia dei clinical trials”

A.O.U. San Giovanni Battista Molinette  
Struttura Complessa Epidemiologia dei Tumori 1U  
Via Santena, 7  
10126 - Torino

Closing Date: 12.30 pm GMT+1, Friday 5th February 2010

The application should indicate:

1. education and training;
2. employment history;
3. citizenship and basic knowledge of Italian language;
4. self-declaration on absence of criminal conviction;
5. personal details (including home and other contact telephone numbers or e-mail).
